COURSE OVERVIEW

Prepare for the PMP exam with confidence

The PMP is recognised by employers in every industry. Passing it takes more than memorising processes. You need to understand how PMI expects a project leader to think through real situations.

This course covers predictive, agile and hybrid delivery with a strong focus on exam technique. You learn to read long situational questions, spot common traps and rule out weak answers. You finish with the 35 contact hours PMI requires, a well-prepared application and mock exam results that show where you stand before exam day.

WHAT YOU WILL LEARN

The knowledge and exam skills the PMP tests

Built around the three areas of the PMP exam: People, Process and Business Environment.

- How to lead teams, manage conflict and keep stakeholders engaged
- How to plan and control scope, schedule, cost, quality and risk
- How projects deliver value and stay aligned with strategy
- How agile and hybrid approaches work in practice
- How to read and answer long situational questions
- How to manage your time on exam day
- How to document your project experience for PMI
- How to use mock exam results to target your revision
